

I AM

*I am a smart boy who likes geography.
I wonder if there will be more than one planet to live on.
I hear stars twinkling in the night sky.
I see a whole new place to live.
I want to know all the things about God, Jesus and the
Holy Ghost.*

*I am a smart boy who likes geography.
I pretend I battle in wars.
I feel powerful with knowledge.
I touch the stars.
I worry about being hurt by someone big.
I cry when someone in my family dies.
I am a smart boy who likes geography.
I understand that I can't live forever.
I say, God, Jesus and the Holy Ghost are real.
I dream that I am an NHL hockey player.
I try to understand people.
I hope to get a good job.
I am a smart boy who likes geography.*
